

1 necessarily by me because these are for anything that  
2 comes into FDLE. So also on submission one there now is  
3 a 4.1 and a 6.1. They're like a subcontainer.

4 Submission three is FDLE items eight and nine.  
5 Submission four is FDLE Item ten. Submission five is  
6 FDLE Items 11 and 12. And submission six is FDLE  
7 Item 13.

8 Q So let's maybe work in reverse order. Item 6  
9 or submission six, the 9/28 of '17, what specifically  
10 was submitted? Rather than just the number what was  
11 submitted?

12 A Well, FDLE Item 13 and that was a driver's  
13 side exterior mirror piece. Not all of these  
14 submissions were part of my examination.

15 Q That's fine. Thank you. That one was though?

16 A That one was.

17 Q How about the submission five, the 8/29/17  
18 submission?

19 A Submission five was FDLE Item 11 which is a  
20 blue and white paint scraping collected from the bottom  
21 of the front driver's side door.

22 Q That you are not working with, correct?

23 A Correct. And FDLE Item 12 which is blue paint  
24 collected from front driver's side wheel.

25 MS. MARZANO: Shannon?

1 MR. McFEE: Yes.

2 MS. MARZANO: There will be an FDLE report  
3 from Laura Marano that you're going to get that I  
4 received yesterday. *Where? Not in discovery*

5 MR. McFEE: Okay.

6 MS. MARZANO: Just so you know.

7 MR. McFEE: All right. So probably need --

8 \* MS. MARZANO: Probably not because she was  
9 unable to identify the scraping as paint is what my  
10 reading of it is.

11 MR. McFEE: Okay.

12 MS. MARZANO: So I don't think you'll want to  
13 redepose her but --

14 MR. McFEE: No, that's fine. That's fine.

15 Thank you.

16 BY MR. McFEE:

17 Q Going to submission No. 4, the 7/7 of '17  
18 submission.

19 A That is FDLE Item 10 which was mirror glass.

20 Q And that is something you did work with,  
21 correct?

22 A Yes.

23 Q And from 6/30 of 2017?

24 A That was FDLE Item 8, one driver's side  
25 outside mirror shell and FDLE nine, one extended mirror
